

BaltAnestIC 2023

11th International Baltic Congress of Anaesthesiology and Intensive care  
September 28–30, 2023, Tartu, Estonia Estonian National Museum

Dear anaesthesiologists, intensive care physicians, anaesthesia and intensive care nurses, physiotherapy specialists, students and all, whose heart belongs to anaesthesiology and intensive care!

The 11th International Baltic Congress of Anaesthesiology and Intensive Care BaltAnestIC 2023, already this autumn, is a great opportunity to meet again in person. Our last in-person meeting was already 5 years ago in the beautiful city of Vilnius, Lithuania. Great sessions and memorable discussions about informed consent and other hot topics are still very clear in our memory.

The city of Tartu, a university town, the City of Good Thoughts and European Capital of Culture 2024 is ready for our next meeting. A great venue, scientific programme and nice sunny autumn weather await delegates of BaltAnestIC 2023.

BaltAnestIC 2023 is accompanied by the 10<sup>th</sup> World Congress of the Abdominal Compartment Society (WCACS) and we invite all delegates to join the interesting programme of WCACS already on Thursday, September 28.

A simulation course and basic course of point of care ultrasound in intensive care and anaesthesiology are both valuable opportunities to broaden and recall knowledge in the practical environment of the simulation centre of the University of Tartu.

Please come to Tartu and bring your colleagues with you, let us make our congress an event to remember together.

On behalf of the organising committee, I cordially invite all of you to join BaltAnestIC 2023 and announce [REGISTRATION IS OPEN!](#)

Please note important dates

**11.06.2023 Abstract submission deadline**

**31.08.2023 Early bird registration ends**
