

Assoc. prof. PhD MD Saulius RUTKAUSKAS

Saulius Rutkauskas finished a Radiology residency at the Lithuanian University of Health Sciences in 2009. But even earlier, he gained interest in MSK US diagnostic possibilities. He started to specialize in pediatric MSK US pathology because of safety, easier performing, and other diagnostic advantages.

As a radiologist, Saulius works in a private clinic and rural general hospital. He scans more than 100 patients per week with various MSK pathology. He is also a senior scientist in Lithuanian Sports University and co-author of two textbooks and more than 7 peer-reviewed articles dedicated to MSK US.

Saulius is the head of the Musculoskeletal Ultrasound Society in Lithuania. He is a member of the European Society of Radiology (ESR) and the European Society of Musculoskeletal Radiology (ESSR). Saulius had organized more than 20 local hands-on MSK US seminars and 3 conferences. Together with ESSR, he organized the Outreach MSK US course in Lithuania. Saulius is also an invited speaker and tutor of ESSR annual meetings and other Outreach courses.
